Professional Summary

I am a B.Tech 3rd-year Computer Science student with basic knowledge of the MERN stack, backend development, and DevOps tools. I am currently doing RHCSA training to improve my Linux skills and working on gaining hands-on experience with DevOps tools like Docker and Ansible and Jenkins for CI/CD pipelines.

Education

Techno India NJR Institue of Technology, B.Tech in Computer Science – Udaipur   Aug 2022 – present
Rajasthan,India
Current (CGPA : 8.17/10)

Experience

Intern, Nasscom ML Intenship – Udaipur Rajasthan   Dec 2022 – Feb 2023

Projects

Ecommerce Site | MERN
- Built a scalable eCommerce platform using MERN stack supporting product browsing, order placement, and admin dashboard.
- Included features like product search, shopping cart, order tracking, and user profile management.

Portfolio Site | React, Tailwind
- Created a personal portfolio website to showcase my skills, projects, and achievements.
- Included sections for about me, projects, contact form, and technical skills.

Hackatkons

Smart India Hackathon(SIH 2023/2024) : (SIH 2023) : This project is mainly based to conserve engergy. (SIH 2024) : Queuing models in OPDs/ availability of beds/ admission of patients. A hospital based solution is ideal which can be integrated with city wide module.
